

LIFE CYCLE MODEL INSTRUCTIONS

What you do:

You will need:

- Thick card or cardboard
- Scissors
- Glue
- 4 lolly sticks
- Modelling clay

1. Draw a circle with a diameter of 15 cm onto some card and cut it out.
2. Cut out two rectangles of card 15 cm long and 10 cm wide.
3. Cut a slit 5 cm long in the middle of both rectangles.
4. Slot the two rectangles together to make an X shape.
5. Glue the X shape onto the circle.
6. Stand the lolly sticks in the four sections of your model using modelling clay.
7. Use more modelling clay to make four stages of your chosen life cycle.
