# Easter Joke Prime Numbers Code Breaker 

To find the punch line to the Easter joke, work out the prime number in each list.
Next, use the grid to find the letter that corresponds with each answer and write it in the egg. Then crack the code. The first one has been done for you.

Question: How does Easter end?

1) $12,33,43$
43

2) $60,61,62$

3) $27,37,39$

4) $77,87,97$
