## Compare the Fruit

I can calculate the total combined mass and difference of several items.

| (0) |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| blueberry <br> 5 g | strawberry <br> 10 g | apricot <br> 30 g | apple <br> 80 g | peach <br> 100 g | banana <br> 150 g | melon <br> 2 kg |

1) Use the correct symbol (<, > or =) to compare these items:

| 2 strawberries and 1 banana |  | 1 peach and 4 blueberries |
| :---: | :---: | :---: |
| 5 blueberries and 3 apricots |  | 2 apples and 1 banana |
| 6 blueberries and 1 apricot |  | 1 apple and 1 strawberry |

2) Calculate the difference in mass:
a) Between an apple and a banana.
b) Between a banana and 4 strawberries.
c) Between 3 apricots and a peach.
$\qquad$

## Compare the Fruit Answers

I can calculate the total combined mass and difference of several items.

1) Use the correct symbol (<, > or =) to compare these items:

| 2 strawberries and 1 banana | $>$ | 1 peach and 4 blueberries |
| :---: | :---: | :---: |
| 5 blueberries and 3 apricots | $<$ | 2 apples and 1 banana |
| 6 blueberries and 1 apricot | $<$ | 1 apple and 1 strawberry |

2) Calculate the difference in mass:
a) Between an apple and a banana.

709
b) Between a banana and 4 strawberries.

1109
c) Between 3 apricots and a peach.

109
