

# Home learning tasks- guide for grown ups- 3.4.20

Please DO NOT feel like you have to do all of these tasks every day. Some days you might do all of them and some days you may not do any. These are just some ideas to keep you going for when your child ready and happy to learn.

## Phonics

Write ship, think, pain, chop, lark. Try to spot the digraph in the attached words. I have highlighted the digraph. Now that you have spotted the digraph can you read the whole word? How many can you read in 3 minutes?

## Maths

<https://whiterosemaths.com/homelearning/early-years/>

Look at the link above and do 1 activity per day from 'week 1.' If you do not have the resources they ask for then don't worry, you could improvise- for example instead of plastic eggs you could make playdough eggs.

## Reading

If you have some suitable books at home, then try to read once a day with your child. Give them LOADS of praise and encouragement. If you want, you could video them reading and upload it onto tapestry so that we can give your child some positive feedback!

Can you read Bear Hunt with your children? If you don't have a copy here is a link to Michael Rosen reading it. You can try to get the channel 4 version online too.

<https://www.youtube.com/watch?v=OgyI6ykDwds>

## Writing

Have a look at the end of the Bear Hunt story. How do you think the bear feels? Can you write a speech bubble for the bear? For example you could write "I just wanted to play." Don't expect your child to spell each word perfectly; try to get them to make a phonetically plausible attempt. For example- "I just wontid to plai." Try and get them to remember a capital letter at the start and a full stop at the end.

## Understanding the world/ Expressive Art and design/ Communication and Language

If you have the resources at home, make a bear mask or bear head band. I will get my children to make one and upload it onto tapestry to give you some ideas!
