Q1 Complete the table.

Number in words	Number in numerals
four hundred and two thousand and eleven	
	675,306
one hundred and twelve thousand and forty	

2 marks

Q2

| 8 | 2 | 4 | 3 | 6 | 2 |

Jordan takes three cards and multiplies the digits together.

Aliyah takes the remaining three cards and multiplies them.

They both make the same total.

What is the total that both children make?

1 mark

Q3

| 5 | 6 | 7 | + | 2 | 3 | 8 |

Change one digit in the calculation so that the answer is a multiple of 10.

☐ + ☐ = ☐

1 mark
