

23/06/20

WALT convert milli units.

Please as many of these as you are able.

If you get the hang of one set and have completed at least three, move to the next.

Complete the conversions.

$1,000 \text{ mm} = 1 \text{ m}$

$1,000 \text{ ml} = 1 \text{ l}$

$5,000 \text{ mm} = \square \text{ m}$

$\square \text{ ml} = 3 \text{ l}$

$50,000 \text{ mm} = \square \text{ m}$

$\square \text{ ml} = 30 \text{ l}$

$500 \text{ mm} = \square \text{ m}$

$300 \text{ ml} = \square \text{ l}$

$5,500 \text{ mm} = \square \text{ m}$

$\square \text{ ml} = 0.3 \text{ l}$

Complete the missing information

$\frac{1}{1,000} \text{ m} = \square \text{ mm} \quad \frac{1}{100} \text{ m} = \square \text{ mm} \quad \frac{1}{10} \text{ m} = \square \text{ mm}$

$3 \text{ l} + \frac{1}{4} \text{ l} = \square \text{ ml} \quad 2 \text{ l} + \square \text{ ml} = 2,500 \text{ ml}$

Compare the measurements using $<$, $>$ or $=$

$2 \text{ l} \bigcirc 1,500 \text{ ml}$

$60 \text{ l} \bigcirc 6,000 \text{ ml}$

$2.8 \text{ m} \bigcirc 280 \text{ mm}$

$3,700 \text{ m} \bigcirc 3.7 \text{ mm}$

Cola is sold in bottles and cans.

Alex buys 5 cans and 3 bottles.
She sells the cola in 100 ml glasses.
She sells all the cola.
How many glasses does she sell?

Alex charges 50 p per glass.
How much profit does she make?

Ribbon is sold in 225 mm pieces.
Teddy needs 5 metres of ribbon.
How many pieces does he need to buy?

Teddy would like to make either a bookmark or a rosette with his left over ribbon. Which can he make?

To make 5 bookmarks you will need:
1.2 metres of ribbon
