Year 6 – Summer Block 3 – Statistics

<u>Hi Year 6 – It's already 22<sup>nd</sup> June 2020!</u>

## **WALT Understand Circles**

# See my notes in green to help you.

**Introduction** 

#### Challenge

How long does it take you to complete these calculations?

Double	Half
24	68
47	842
86	94
19.4	76
62.5	85
94.37	38.66

#### Challenge

How long does it take you to complete these calculations?

Double		Half	
24	48	68	34
47	94	842	421
86	172	94	47
19.4	38.8	76	38
62.5	125	85	42.5
94.37	188.74	38.66	19.33

Tick the circle which has a radius of 76mm.

Tick the circle which has a radius of 76mm. Remember that the radius is the measurement from the centre of a circle to its edge.

Use the measurements below to label the radius and diameter. Remember that the diameter is the measure all the way across the widest point of a circle. It is twice the length of the radius.

© Classroom Secrets Limited 2018

Match each diameter to its radius.

**59m** 

47.5m

63.5m

95m

83m

29.5m

127m

41.5m

Use your ruler to draw and measure the radius and diameter.

Use your ruler to draw and measure the radius and diameter.

9cm

**4.5cm** 

Please note this image will appear larger when displayed on a whiteboard. You may wish to print copies for your children to view at the correct size.

### Well done! It's over to you now.

Go to Part 2 and choose your challenge! Normal rules apply: page 1 will give you an easier challenge, page 2 will be about the same as what we've just practised and page 3 will be more of a stretch.

You only need to do the first set of questions on your chosen challenge – the 'A' questions. If you want extra practice, you can then do the 'B' questions of your chosen challenge page. When you finish, don't forget to mark your answers before sharing, so I can see where you need help.
