

Easter activities grid

We have put together some fun activities to get stuck into if you find yourself with some spare time over Easter. Remember to send us pictures of anything you have made if you'd like to share them! We'd love to see what you have been up to. There are resources, inspiration and instructions also saved on the school website.

Create some eye catching Easter eggs like the one below using tape and pens, pencils or paint!

Make up your own word search or cross word with some Easter themed words.

Here are some to get you started

- Chicks
- Bunny
- Chocolate
- Easter
- Christian
- Jesus

Make a sock puppet. This one uses small balls and elastic bands but you could use rice to fill it.

Can you figure out how to make a rabbit or a chick?

Challenge yourself and anyone at home to try the 'minute to win it' challenges which are saved in the word document. These are challenges which are tricky to do in one minute.

Can you think of any of your own?

Make some origami animals, there are some instructions for a rabbit, dog, crab, dinosaur and some others in the word document.

Create your own musical instrument using anything that you have in your house. You might put elastic bands over a tissue box to make a guitar or stretch a balloon over a tin can to make a drum. There is some inspiration in the word document.

Design your own board game, you might like to base it off of a game you've played before, snakes and ladders, monopoly, cluedo, scrabble or something completely new. You could create counters and a dice and play it with someone at home!

Some themes you could use include: School, Easter, The rainforest, The Romans, pets, Roald Dahl, sports.

Model some people using tin foil. You could then stick their feet to paper and create a background, including their shadow.

Or you could use them as characters in a stop-motion animation!

Create a film poster for your favourite book. Imagine that it is being made into a film – how would you encourage someone to watch that film?

Make sure it is eye-catching and has good information on it.

You could create tickets for the red carpet event too – who would you invite to the very first screening!?

Have a go at paper weaving. There is template and instructions in the word document. There's even a fish template too!

Egg challenge.

Using a normal chickens egg and any materials you like. Create a case for your egg to protect it.

When you are happy, have a go at dropping the egg from a height (while standing on a chair) and see if your case protected it! **I would cover the ground with plastic bags in case you get egg everywhere!**

Create a map of your house and then bury some 'treasure'. Make sure you mark on the map an X where the treasure is. Can anyone at home find the treasure?

You could create a trail of clues for them to follow too!
