## MATHS 4

WALT - x by 2 and 5 practical

## Starter - match the pictures to what they are showing

## Solving multiplication problems

$2 \times 4=$

This means we need to make $\mathbf{2}$ groups that both have $\mathbf{4}$ in them.

## Solving multiplication problems

$5 \times 2=$

This means we need to make $\mathbf{5}$ groups that both have $\mathbf{2}$ in them.

Can you make these multiplications using something in your house?

$$
2 \times 6=\quad 5 \times 3=
$$

$2 \times 3=$
$5 \times 5=$
$2 \times 5=$
$7 \times 5=$

## ACTIVITY

Times each number by 2 and write the answer in the box. If you need to make the groups using your resources. You do not need to time yourself - that is a challenge.
