

School Council 13.6.19

Eco-bricks

All School Council agreed that building a greenhouse out of eco-bricks/bottles is a good idea.

Recycling

Speak to classes – putting right things in the recycling

Paper, cardboard, brown paper bags can be recycled

Fruit, vegetables, wrapper, cartons – normal bins

Can we help each other and make sure our friends are putting recycling and rubbish in the right bins.

Can't see lid so need to put a sign on front to make more clear.

Leaflets to advise people on how to reduce plastic use.

Fish

Concerned about the fish in the fish tank. Would like to improve the tank. Think about how we might raise money to do that?

New background picture but ask children not to touch this and rip pieces off.

Present something to classes about how we can help the fish.

Ask Mrs Fisher how often fish tank and filter gets cleaned?

Girls football

Could we encourage girls to play football? How do we do this and make everybody feel confident?

Hettie experienced this in another school and splitting playground into 2 parts, one day of the week and one was for girls and one was for boys. This was successful. Could we do this?

Mrs Bedford is going contact Lewes Football Club to speak to school about girls football.

Commented on need to build on team players and respecting each other.

Ask Mrs Wooler what the tv in the gallery can be or is used for?
