

Monday 1st June 2020 - Lighthouse– Comprehension Questions

This is the beginning of a week-long unit of work based around a short animation called *Lighthouse*. Today, we are going to watch and analyse the clip. You will need some scrap paper to make notes on and access to a computer or phone to watch the clip. To answer these questions, you can print out these sheets and write on them, copy the questions and answers into your home learning book or write directly onto this sheet template using SeeSaw.

Gist Task – Some questions to hook you into the story. Read the questions first, and jot them down on your scrap paper. Watch the clip all the way through, pausing to make notes if you need to. Write your answers below, referring to your notes.

<https://www.literacyshed.com/the-lighthouse.html>

1, When is the story set? How do you know?

2, Who is the main character?

3, What goes wrong for the main character?

4, How does the problem get resolved?

Now, move onto the detailed questions on the next page.

Detailed Task – Some further questions to help you to analyse the story more closely.
Read the questions and copy them onto your scrap paper. Watch the clip again, pausing as you need to, and make notes to help you answer the questions.

5, Describe the setting in three sentences.

6, How do you think the lighthouse keeper feels about his neighbours at the beginning on the clip?

7, When he sees the ship, he panics. How is this shown through his actions in the animation?

8, How do you think the lighthouse keeper feels about his neighbours at the end of the clip?

9, What do you think will happen next time there's a party in the village?
