WALT – describe movement

When looking at this grid, we will be using our left and right to decide which way the animals have turned. Remember to look at the way the animals are facing!

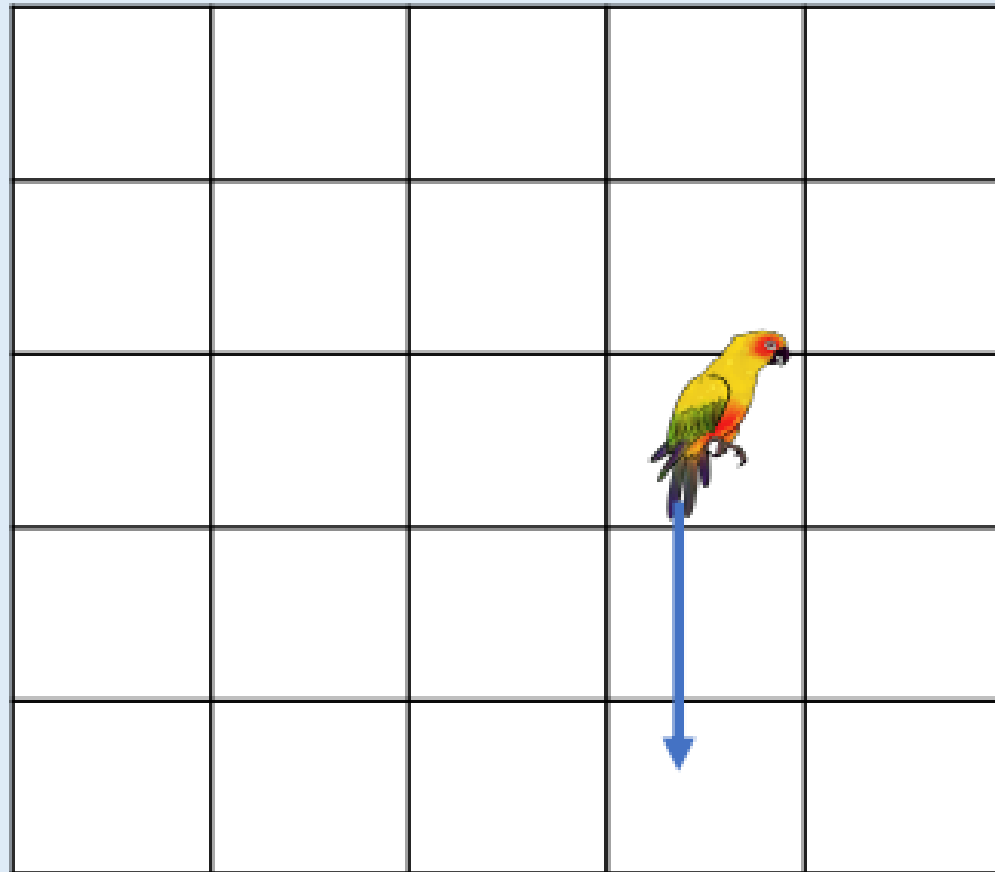

The picture of the shark shows it has turned left, not forward because of the way it is facing.

Use your pencil to pretend it is the shark.
Which way would be left and which way would be right?

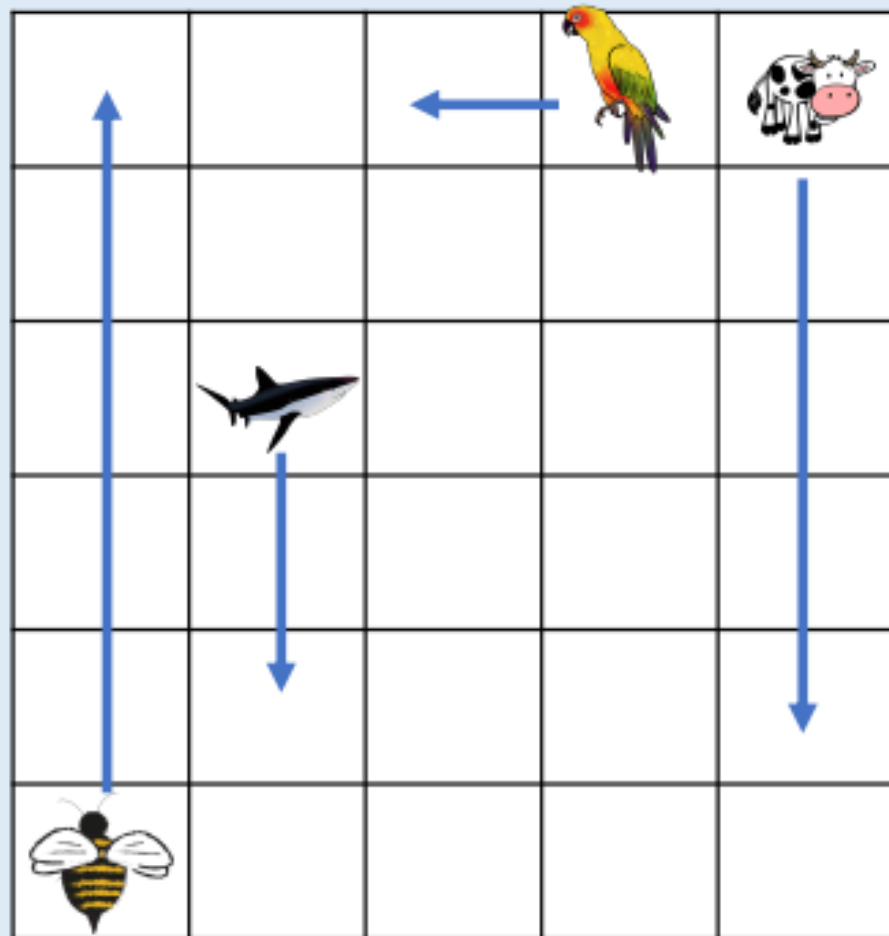

Has the parrot moved left, right, forwards or backwards?

The parrot has moved right because of the way it is facing.

Complete the stem sentences to describe the movements made.

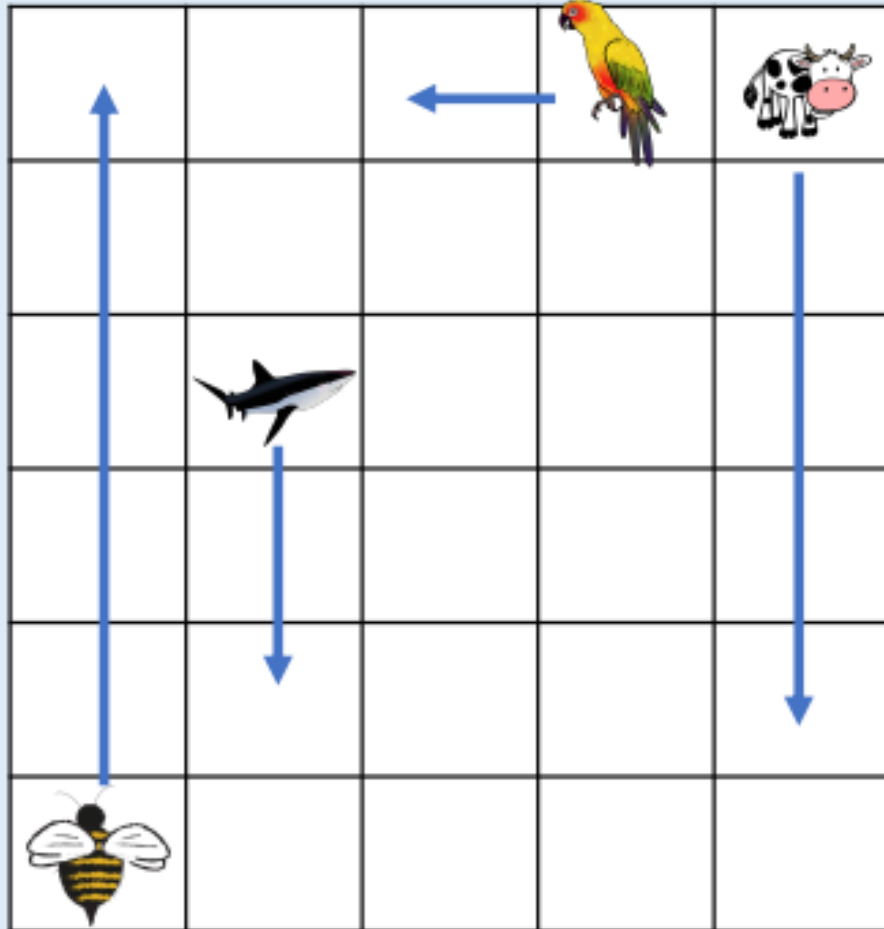

The  has moved 1 square _____.

The  has moved _____ squares _____.

The _____ has moved 2 squares right.

The _____ has moved _____ squares forwards.

Complete the stem sentences to describe the movements made.

The  has moved 1 square forward.

The  has moved 4 squares forward.

The shark has moved 2 squares right.

The bee has moved 5 squares forwards.

Can you complete the worksheet in
'response' section?
