

MATHS 5

WALT – multiply by making groups

Starter – count by 5s

<https://www.youtube.com/watch?v=amxVL9KUmq8>

Solving multiplication problems

$$3 \times 5 =$$

This means we need to make ? groups that both have ? in them.

Can you work out the answer by drawing the amount of circles and the amount of dots that go in each one?

3 groups of 5

$$3 \times 5 = 15$$

Solving multiplication problems

$$5 \times 5 =$$

This means we need to make ? groups that both have ? in them.

Can you work out the answer by drawing the amount of circles and the amount of dots that go in each one?

5 groups of 5

$$5 \times 5 = 25$$

Can you make these multiplications by drawing the groups?

$$4 \times 2 =$$

$$9 \times 2 =$$

$$5 \times 4 =$$

$$6 \times 5 =$$

$$6 \times 3 =$$

$$4 \times 10 =$$

ACTIVITY

Snakes and ladders

If you need to use resources to work out the answers that is fine!

Snakes and Ladders 2, 3, 4 and 5 Times Tables

You will need:

- the Snakes and Ladders Board Game;
- a dice;
- a counter per player.

How to play:

- Players take it in turns to roll the dice. The player with the highest number goes first, the player with the second highest goes second and so on.
- When it's their turn, players move the counter the number of spaces shown on the dice and answer the calculation they land on.
- If the answer given to the calculation is correct, play continues as usual:
 - landing on a snake's head - the player's counter slides down;
 - landing at the bottom of a ladder - the player's counter climbs up.
- If the answer given to the calculation is incorrect, the player misses a go.
- The first player to reach the finish is the winner!

20 $4 \times 5 =$	21 $5 \times 7 =$	22 $3 \times 5 =$	23 $2 \times 9 =$	Finish
19 $4 \times 4 =$	18 $2 \times 7 =$	17 $5 \times 5 =$	16 $3 \times 8 =$	15 $2 \times 2 =$
10 $2 \times 4 =$	11 $5 \times 6 =$	12 $3 \times 9 =$	13 $4 \times 2 =$	14 $2 \times 6 =$
9 $4 \times 9 =$	8 $2 \times 3 =$	7 $3 \times 4 =$	6 $4 \times 6 =$	5 $5 \times 8 =$
Start	1 $5 \times 2 =$	2 $3 \times 6 =$	3 $2 \times 8 =$	4 $4 \times 3 =$
